

Document shredder DAHLE Volume PRO

20453

A high general level of performance is the key-note for this shredder. Whether large quantities of continuous stationery or the entire contents of a waste bin require quick and efficient disposal, this shredder is the right tool. It goes without saying that a central location is the most appropriate place.

Robust all-metal construction. Three fold-away shelves at the front facilitate the feeding of continuous stationery. The integrated feeding funnel makes it possible to empty the waste paper basket directly into the shredder - without any mess. Emptying the shred waste is not an effort thanks to the movable wooden waste container (accessory: waste bag no. 20751). User-friendly control panel. Cutters are made of special steel and cope with paper clips and staples.

- 35-year warranty on solid-steel cutters
- Handled correctly, document shredders come with a 2-year warranty on proper working order
- This model is also available as a 230 V version with modified data
